COMMENCING . . . A NEW DETECTIVE NOVEL  
"The Case of the Painted Girl"

## 4 NEW EIGHTS with a New Driving Thrill

THE new 1932 McLaughlin Buick Eights have an entirely new system of car operation—Wizard Control. By merely resting your foot on a convenient floor button, the use of the clutch is eliminated in changing gears. All the advantages of Fris Wheeling are instantly available. Every gear change is silent, while you may accelerate quietly up to 40 miles per hour in second.

In addition, these Eights have the Ride Regulator, which, by means of a convenient control, makes possible the instant adjustment of shock absorbers to meet any road or load condition.

There are many more improvements on all of the 34 new McLaughlin Buick models. Your dealer has a car for you to see and test. You may buy on time payments through GMAC, and assure your continued satisfaction by the General Motors Owner Service Policy. Call your dealer today.

The new McLaughlin Buick Eights are priced from \$4995 to \$5975 in factory. Delivery, taxes extra.

## Hear this new Big Ben Chime Alarm with Two Voices

A new way of getting you up on the right side of the bed in the morning—a new Big Ben with a new system of bells beginning with a cheerful chirp and ending with a claxon-round command.

The new Big Ben has two voices. First, there's a series of soft chime-rills to wake you without also waking everyone in the house. But if you feel to shut off the alarm during the first warning, he lets you know he means business with his long, loud, reserve call. Big Ben is thoughtful all through the night too—for you don't hear him tick.

This new alarm is a striking example of modern design, in tortoiseshell black and nickel—with new legible figures and graceful parrot hands. Guaranteed two years.

Ask to hear this new Big Ben wherever clocks are sold. Made in Port Huron, Ontario, by Western Clock Company, Limited.

**BIG BEN**  
Chime Alarm  
WITH 2 VOICES AND QUIET TICK

With all his new features he costs only \$4.75  
Retailer alarm... without red watch...  
with claxon... Watch alarm rings from 15 to 35 ft. at 10 ft. per sec. per sec.

## THIRTEEN YEARS LATER

Bottlefields now produce vegetables, and pallboxes have become chicken pens—but every grain memorial of the War remains.

PROBABLY FURTHER

<sup>11</sup> If there is any information about an agent's past behavior, it is all in the White, I just may never see it again.

A black and white photograph showing a small, rural village. In the foreground, there is a dirt road or path leading towards a cluster of small, thatched-roof houses. The houses are built on a slight rise and are surrounded by tall grass or reeds. The sky is overcast, and the overall scene depicts a quiet, isolated settlement.

"We were out of luck through a wiring error in Colorado Creek. It simply left me talking and the men sat there with a head wind of desecrated white gas, endless clothing and a third, stinky odor of dirty, old breath of the Niles. There was no more napping and very little conversation. Something sinister seemed to be hanging over us, slinking at us with hostile eyes. The ap-

A Johnson Thread was a riding cloth. We are with our  
 his to appear on duty with, however, there is a series of  
 ground there, surrounded by, and covered, and not there  
 as in a yard, and there is a riding cloth. In the morning  
 we walked in the only road in our town, as a Government  
 road, to the mountainous territory. The horses could be  
 and the grass and the water had been to them, and with  
 today of that, they do, and the water had been to  
 the road to the mountainous territory, and the water had been to

The old headquarters of the RNC, 1101 N. G. Ave., has not changed greatly.

The couple stayed in the wharfs as the birds sang along the shore and the wind whistled. And over the hills a light of hope shone, golden, glowing bright. No corner of earth was so cold and they walked with confidence otherwise.

The up Greenbelt! Digging in on the slope of this quiet valley of Eschschol, a northwesterly evening in the dusk suggested in the direction of Farm House. Then the attack on Carl Hinder. *Magazine November*

As South Oyster members I went to ground near Montezuma Wells and tried to picture the location of California Trench. But it was 10 and cold, and the wind was howling. I had never been anything else. At South Oyster I took the plane

## THE DESIRE TO KNOW

Nearly five hundred years ago Leonardo da Vinci built an amazing Sommer to the modern aeroplane. Its design

afforded principles fundamental in the construction of aircraft today. For from the birds near Florence he had released hundreds of birds in order to study their flight, and, in his laboratory, he had examined the structure of their wings, the contours of their bodies.

This was the man who also taught the world of art to find its draughtsmanship on a sound knowledge of the physical facts of atmosphere and matter. He it was, moreover, who first observed the presence of shells in the rocks and pointed out that much might be learned from a study of fossils. His notebook shows that human nature, also, was the object of his constant wondering. For in him burned an insatiable desire to know.

The greatest human progress has always been founded on this urge. It is the very cradle of our scientific age. It defied the venture which, on the other hand, strove to uphold a mere theory without an open mind to facts.

That is why research has been given a leading place in the operations of the Fisher Body Corporation. Not a single phase of design or construction is admitted without research, or adopted without trial.

Relative merits of various body types are put to every possible test for strength, quietness and stiffness. Fisher is prepared to produce any type. Fisher produces the type that unprejudiced investigation has upheld.

Combinations of wood and steel are selected on the sole basis of superior results. Construction methods are adopted on the record of scientific evidence. Springs, upholstery, finish—every item, however small—must run the gauntlet of testing, and stand or fall on proof. Fisher, too, is dominated by the desire to know.

This is a characteristic of modern manufacturing. In every industrial field the leaders are those who are paying the most attention to research and tests.

If you ever come to Detroit, you can see to what great lengths this goes. For in the Fisher Body plants you will find the most advanced research and testing facilities—unexcelled, in their field, elsewhere in all the world.

*The*  
New CHRYSLERS

Bring you the greatest  
engineering development  
of modern times—

## FLOATING POWER

*Patented and Fully Protected*

Plus, New Chrysler cars . . . a new Six and three new Eagles . . . all with powered floorpans!

You'll be amazed and delighted . . . with Floating Power in the New Chrysler. It gives a new confidence . . . a confidence never before enjoyed at a motor car . . . because it positively permits you to relax from now on, like *fiesta* and *bolero*, the matter how fast you drive.

### New Assembly Check

Flouting Power is only one of the stunning innovations you will find at the New Chapter.

There's the new Chrysler automatic clutch which makes driving supremely simple. No longer any need to shift. No clutch pedal. When starting, changing gears or even when using reverse. You'll find it a natural effort... no more to stress, no more to teach.

And gear-shifting is amazingly simplified with Chrysler's new shift-gate system. You enter the least likely exit place to any driver's mind — with no more effort than using a hand pencil. If I'm in a hurry to leave to work on time, I pull out a hammer on the dash, and you merely look out both the automatic clutch and I see 33.4 mph.

Heads on the two *Chlorobac* spp. of course, by double ( ) and ( ) are imposed with one eye diameter and a "water" area, as in figure 1.

### *Map and Practical Advantages*

New and improved features available previously only in the hardcover edition are shown in these New Chapters.

**PLUS**  
AUTOMATIC CLUTCH  
SILENT GEAR SELECTOR  
FREE WHEELING  
DOUBLE-DROP GIRDER-TRUSS  
FRAME  
ALL-STEEL BODY  
LITE SQUEAK-PROOF SPRINGS  
HYDRAULIC BRAKES

There's new safety, for instance, in the All-Steel Body which is of much one-piece construction. And there's further protection in the new Double-Door Crawl-Thru Frame... a frame of tremendous strength and rigidity.

UNIVERSITY OF CALIFORNIA, BERKELEY

**New Online Squash:** Proof Springs on all three of the test Eagles give a subtle, more ventral ride... and think of it, they never squeak, never need lubrication!

Now, too, these Chrysler showings: High-compression engine, aluminum pumps, counterweighted crankshaft, full-float-free lubrication, modified crankcase, modern fuel system with fuel pump, air cleaner and remote shutoff, automatic spring throttle, small rear wheels and huge tires, adjustable front seat, automatic rear window roller, long body for this space.

### Assess the Institution

See the New Chrysler? Observe the beautiful streamlines draped over the low center of gravity... the larger, roomier bodies of greatly increased luxury. Drive them, run... and you'll recognize they're more powerful... faster than ever... and undeniably smooth because of Florida Power.

Go over the New Chrysler feature by feature and try to find as many important new features as any other cars anywhere near them in price. Please do that! You'll understand why so many thousands of people look to Chrysler as the pattern of what a truly modern motor car should offer... in style, performance, ease, and value.

*Four complete line-ups:* 1) *Navy models* — sporty jet-setter; 2) *A new Chrysler Six*, with an 87-horsepower engine and five body models; 3) *a new Chrysler Eight*, with a 100-horsepower engine and five body models; 4) *a new Chrysler Imperial Eight* with a 125-horsepower engine, and three body models; 5) *a new Chrysler Imperial Custom Eight*, with a 125-horsepower engine and six body models.

## The Winter Sun Room

By F. L. deN. SCOTT

[illegible]

But her husband's  
unwillingly my  
beloved of every  
kind for me in  
dearest love mine

The present day was not a success. It is almost certain it will catch the hearts of the race, to the confusion if possible, but always to the cost. It is being made into a sort of arena to the living room or dining room and is of 14 x 14 ft. of gambrel, put on in the back of the house of living the way there will not be any privacy. The new room was a difficulty not on the public, most of the lower class, but the entrance hall and living room was the lowest, most, but most like the house, only with a secret, but

## Amphibia: Reptalia

[illegible]

Yoga gives you full access to your body, so that you can stretch and use it as much as you wish. It is a great way to improve your posture, and to make your muscles and joints more flexible. It is also a great way to improve your balance, and to make your mind more focused. It is a great way to improve your overall health, and to make your life more enjoyable.

### Acronyms and Abbreviations

It is, however, the language with which writers may be said to create the new dimensions through which the 21st century is to be seen that make the most interesting contribution.

There is no gap in the T-4 test results.

Printed on the Internet, with selected sections and diagrams on portable and permanent.

# WIT AND WISDOM

I like the man who is the most.

I like the man who is the most  
I like the man who is the most  
I like the man who is the most  
I like the man who is the most.

I like the man who is the most  
I like the man who is the most  
I like the man who is the most  
I like the man who is the most.

I like the man who is the most  
I like the man who is the most  
I like the man who is the most  
I like the man who is the most.

I like the man who is the most  
I like the man who is the most  
I like the man who is the most  
I like the man who is the most.

I like the man who is the most  
I like the man who is the most  
I like the man who is the most  
I like the man who is the most.

I like the man who is the most  
I like the man who is the most  
I like the man who is the most  
I like the man who is the most.

"Bills! And you are all of the other bills!"

The bill who pulled wings off his nose

"John Brown, I'll have an army of your job working around my house!"

# Now...Picture Taking knows no season

ON these winter days, load up with the new Kodak Verichrome Film. It keeps your camera in active service every month throughout the year.

Bright light or dull, in snow or rain, this fast-seeing film gives January pictures as fine, as clear, as interesting as any you've ever known in June.

See your Kodak dealer.

Canadian Kodak Co., Limited, Toronto

Made by an exclusive Eastman process

No other film is "the same as"—
